

## 5D™ Embroidery System – Free Update F&Bs

Version 1.0 May 11, 2011

### Lettering Enhancements

- Improved lettering including new types of fonts with specialty fill types. Personalizing becomes even more creative!
- 6 new SuperFonts are included: 3 fonts in the update (Gaudy Continuous Satin [Modern Category]; Per Gothic Contour Fill, Per Gothic Motif Fill [Traditional Category]); 3 fonts as free downloads from the 5D™ Purchase Center (Revue Patchwork Crosshatch XH [Modern Category]; Revue 2C Spiral Fill, Revue 2C Motif Fill [MultiColor Category])

- Specialty fill fonts: Convert between Contour Fill, Shape Fill with 50 shape options and motif options, Radial Fill, Spiral Fill and QuiltStipple Fill. There are hundreds of options in each font!\*\*
  - Motif Fill fonts: Create lettering with your own machine stitch motifs. Choose from hundreds of motifs.\*\*
  - Crosshatch fill fonts: Create lettering with crosshatch fill for patchwork or lace effects.\*\*
  - MultiWave fill fonts: Vary the wave density from 2 to 40 and choose from hundreds of motifs for amazing effects.\*\*
  - Continuous column satin fonts: adjust underlay for different fabrics
- \*\*Conversion features are available only in 5D™ Embroidery Extra or the Full System, not 5D™ Embroidery.

ChildStyle 4

## MultiWave Fill

- Create flowing waves of stitching with the wonderful MultiWave Fill in 5D™ Design Creator. \*\* Simply create one or more wave lines in MultiWave Fill area by drawing or placing points and the stitches create a wave automatically. Use an unlimited number of wave lines! Vary the wave density from 2 to 40.
- Choose from hundreds of motifs for amazing effects.
- MultiWave Fill helps you achieve true 3D effects and perspective in your designs.
- Change any fill area or specialty fill to the new MultiWave fill.

a

\*\*Available in the Full System only.

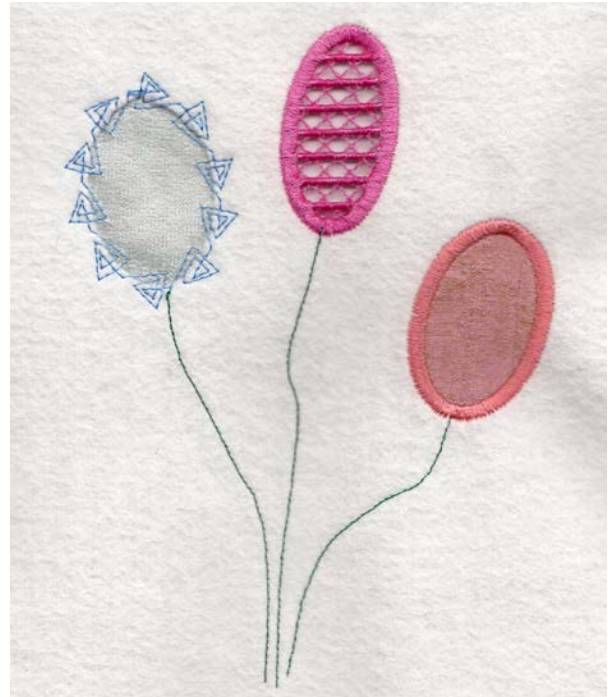

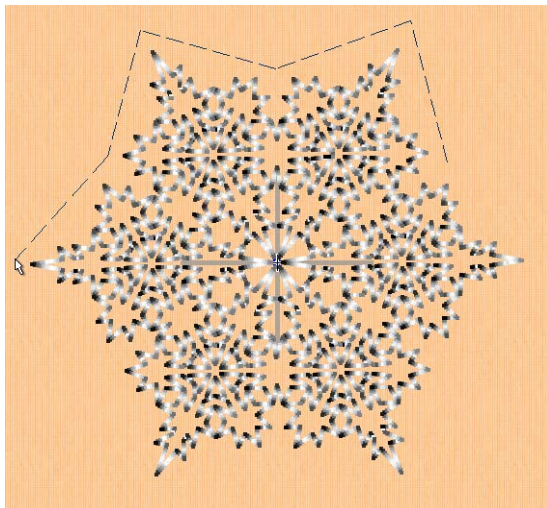

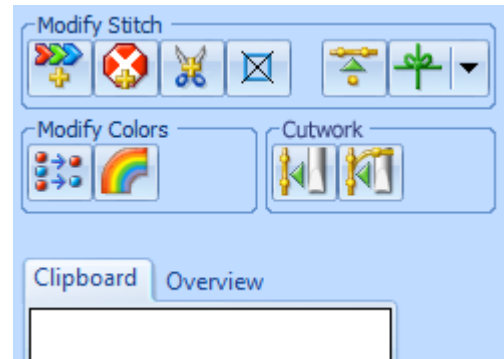

## Inspira Cutwork needle support

Added Inspira Cutwork needle support in 5D™ Stitch Editor and 5D™ Design Creator. Convert existing designs and create new designs with cutwork needle lines.

### 5D™ Stitch Editor

- Select the area where you wish to insert a cutwork line
- Draw the line, usually tracing stitches that are already in the design
- The line is automatically converted to two or four cutwork lines, as desired
- Optionally include secure points and stabilizing lines to hold the stabilizer during embroidery process.

### 5D™ Design Creator\*\*

- Set or change any line to Running Line with Cutwork Needle Line.
- Two or four cutwork lines are created automatically, as desired
- Optionally include secure points to hold the stabilizer during embroidery process.

## 5D™ Font Digitizing\*\*

- Completely revamped module with features aligned with 5D™ Design Creator.
- Create your own specialty fill fonts!
- Create MiniDesigns (formerly Shapes).
- Create fonts using Continuous Column, Pattern Fill, Motif Fill, Crosshatch Fill, MultiWave Fill and Speciality Fills (Contour Fill, Shape Fill, Radial Fill, Spiral Fill, QuiltStipple Fill).
- Create fonts and MiniDesigns with Feathered Satin, Richelieu bars or Tapered Motifs

\*\*Available in the Full System only.

*You can download today to start your project immediately. Just open the 5D™ Configure module in your software and select the Smart Update icon for an automatic update. (Update DVD available for a nominal charge from your local authorized dealer.)*
