

MultiWave Fill

A true three-dimensional effect is now available for your designs using the new MultiWave fill in 5D™ Design Creator*. Simply create one or more wave lines in a MultiWave Fill area by drawing or placing points. The stitches automatically create a wavel! Use an unlimited number of wave lines in one design! Vary the wave density to enhance the multi-dimensional effect. Choose from hundreds of motifs. Change any fill area or specialty fill to the new MultiWave fill.

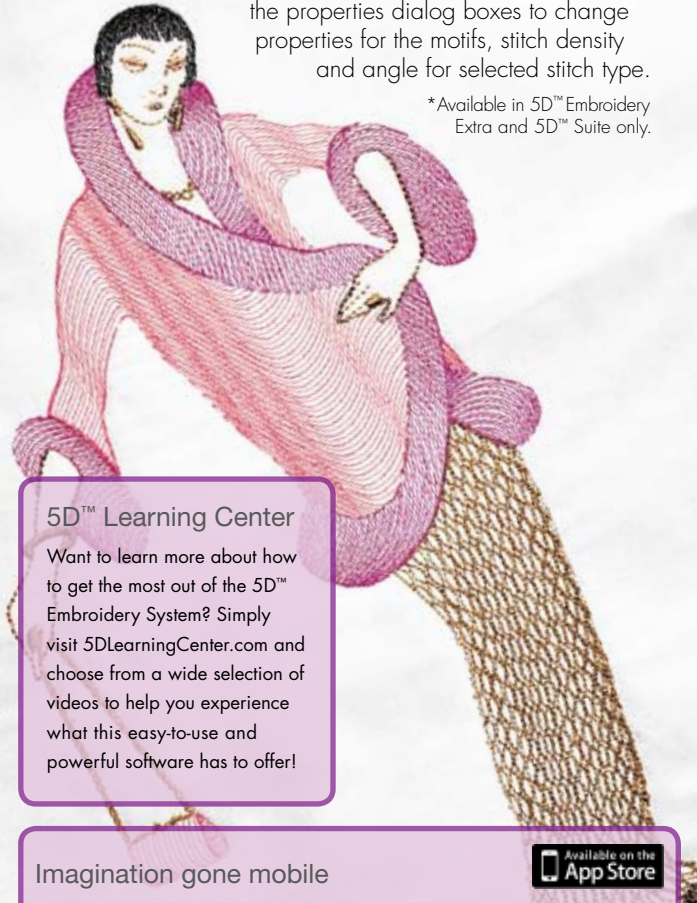

*Available in 5D™ Suite only

The MultiWave Fill beautifully emphasises the lines of the leaves.

Additional Stitch Types

The 5D™ Embroidery System now offers additional stitch types for editing in some fonts, frames and MiniDesigns*. New stitch types include: Motif Fill, Crosshatch Fill, MultiWave Fill, Shape Fill, Radial Fill, Spiral Fill, QuiltStipple Fill, Contour Fill, and Continuous Satin. Some additional features are also available for some existing stitch types. Use the properties dialog boxes to change properties for the motifs, stitch density and angle for selected stitch type.

*Available in 5D™ Embroidery Extra and 5D™ Suite only.

5D™ Learning Center

Want to learn more about how to get the most out of the 5D™ Embroidery System? Simply visit 5DLearningCenter.com and choose from a wide selection of videos to help you experience what this easy-to-use and powerful software has to offer!

Imagination gone mobile

5D™ EMBROIDERY SYSTEM

FREE
UPDATE

New and updated features!

Enhance your 5D™ Embroidery System experience by downloading this free update to your existing software. With more options and effects, you have even more room for creativity!

SuperFonts, Minidesigns and Frames

5D™ Embroidery, 5D™ Embroidery Extra and 5D™ Suite now offer a new kind of font: SuperFonts! 3 new SuperFonts are included as well as 3 FREE SuperFonts available for download through the 5D™ Purchase Center. Additionally you can download new SuperFonts available for purchase through the 5D™ Purchase Center. These new type of fonts are available with a range of specialty fills, continuous satin and other stitch types. Personalizing becomes even more creative!

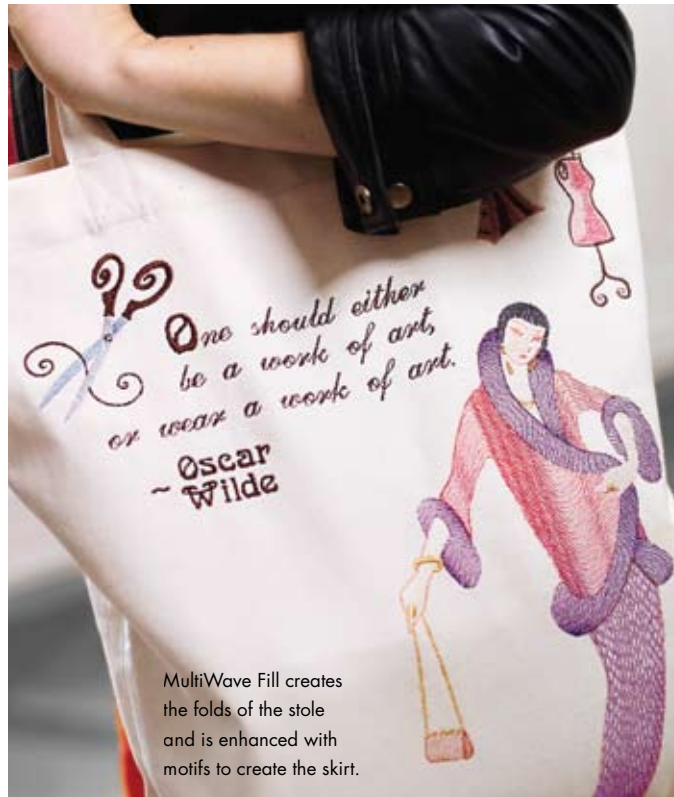

If you own 5D™ Embroidery Extra or 5D™ Suite, you can have even more fun customizing the stitches by changing the fill types in the various SuperFonts. SuperFonts may also be used in the ExpressMonogram Wizard and 5D™ Family Tree.

Included for even more fun is a MiniDesign set (ChildStyle 1) and two new frame sets (Banners 1 and 2). Additionally you can purchase new MiniDesign sets. This combination of fonts, MiniDesigns and frames will open up a world of creativity as you personalize your projects.

D - new font "Animal Magic".
Download from the Purchase Center.

Delicia - new font "Heart Initials" with
MiniDesigns from ChildStyle 2 and 3.
Download from Purchase Center.

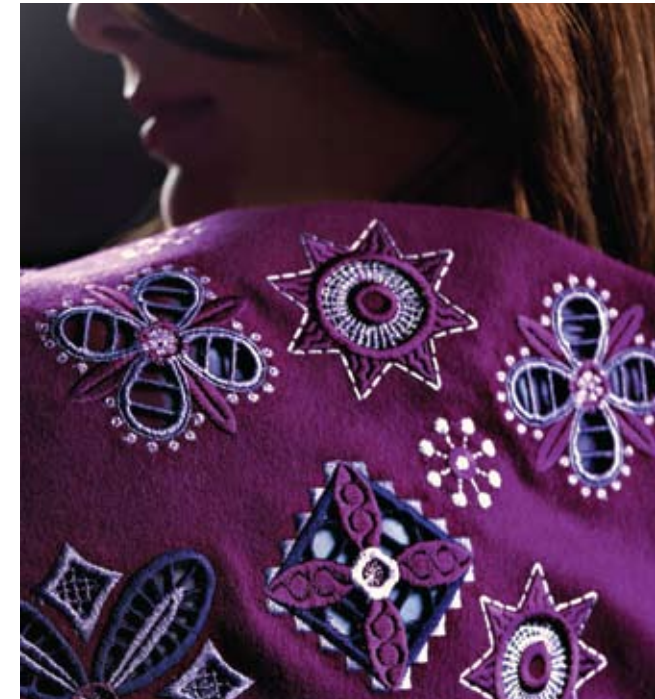

MultiWave Fill creates the folds of the stole and is enhanced with motifs to create the skirt.

Purchase Fonts and MiniDesigns from the comfort of your home!

Simply select the Purchase Center icon in 5D™ Embroidery, 5D™ Embroidery Extra, 5D™ Suite or visit 5DPurchaseCenter.com. Download and install takes just a few moments.

NEW!

Cutwork Needle Support

Cutwork needle support has been added to 5D™ Stitch Editor and 5D™ Design Creator. You can now convert existing or create new designs with cutwork needle lines. Add your own unique touch to a home décor project or fashion item.

INSPIRA® Cutwork needles sold separately.

In the updated version of 5D™ Design Creator, Cutwork Needle Lines are available as an option for Running Stitch. This enables you to automatically remove fabric for cutwork and reverse appliqué or simply to cut out a shape or design. Become your own cutwork artist!

You can download today to start your project immediately. Just open the 5D™ Configure module in your software and select the Smart Update icon for an automatic update*.

*Update DVD available for a nominal charge from your local authorized dealer.
